Warmup/Attendance: [Week 4: Friday 9/18/2026]

Full Name: SID:

- As you sit down in class, start working with the people around you to try to solve these problems
- These are *not* graded for correctness, but you will turn this sheet in for attendance at the end of class.
- We'll discuss the solutions in lecture today.

What is the issue in these commands?

1. Can you spot the bug(s)?

```
ggplot(penguins, x = bill_length_mm, y = bill_depth_mm) +
  geom_point()
```

2. Can you spot the bug(s)?

```
ggplot(
  data = penguins,
  mapping = aes(x = bill_length_mm,
                y = bill_depth_mm,
                color = species))
  geom_point()
```

3. Can you spot the bug(s)?

```
ggplot(
  data = penguins,
  mapping = aes(x = bill_length_mm
                y = bill_depth_mm,
                color = species) |>
  goem_point()
```
